

Help clean up Bindii in Murray River Council

Murray River Council is seeking community assistance with the eradication of the Caltrop weed from their properties this Easter.

Murray River Council currently has a weed management program and our staff are doing their best however we need YOUR help to assist with eradicating Caltrop in our region.

While many garden beds throughout areas of Council are reaping the benefits of recent rainfall other areas are dealing with a totally different type of foliage — weeds.

The Caltrop weed, also commonly known as bindii, goat's head, yellow vine, three corner jack and cat's head have a high drought tolerance and is a nuisance on nature strips, footpaths and playing fields throughout NSW, getting stuck in the padded paws of our beloved pooches, puncturing bike tyres and sticking to our rubber sole shoes.

Help clean up Caltrop Competition

While the NSW Govt is campaigning for residents to Stay Home this Easter, now is the perfect time to get out in the garden whilst still practising social distancing this Easter.

Any assistance community members can provide removing Caltrop from nature strips and adjoining vacant land will be greatly appreciated.

In an effort to keep 'River Country' clear of Caltrop, Murray River Council are asking residents to help remove the weeds as soon as possible. As an incentive, Council is offering all residents the chance to win one of up to 10 x \$250 gift vouchers to spend in their local community by simply sending us a before and after image of the weed removal.

Prizes to be won

10x \$250 vouchers to be spent in your local community.
