What should I do with the wrapper once I eat the Easter egg?

In the recycling bin.

*Both foil wrappers and cartons are recyclable.

An eggscellent idea this Easter is to recycle your foil egg wrappers by scrunching them together into the size of a golf ball, then pop them in the recycling bin.

With the foil wrappers all scrunched up together, no one will ever know how much Easter chocolate you've eaten.

Don't have enough wrappers to make a golf ball, don't worry. Place the wrappers you do have, inside an aluminium can before placing the can in the recycling bin.
